

What is social bookmarking?

Every story on our website now has links to social bookmarking websites.

These sites allow you to store, tag and share links across the internet. So instead of bookmarking sites just on your computer, you can save them to a site, which friends and people with similar interests can view.

If you come across a story that you find interesting on our website and you want to bookmark it for future reference, or for others to see, just click on one of the social bookmarking links to add to your list.

Social bookmarking sites are free to use but do require you to register before you start bookmarking.

These sites are similar but have slight differences, so use the links below to find out which one best suits your needs.

Del.icio.us

To register, go to:
