

Dycem Molded Cup Holder

Dycem is not sticky, but grips on both sides to prevent movement on dry, slippery surfaces.

The holder fits snugly onto the bottom of a standard-sized mug or tumbler so that the mug has a non-slip base wherever it's placed and stabilises it to prevent movement and spillage.

It can be used with hot drinks and will not damage the surface on which it is placed.

This moulded cup holder is yellow. All Dycem products are non-toxic, latex free, colour fast, odourless and easily washed.
