

Pocket Hal

Pocket Hal is a full screen reader, complete with braille support for the Pocket PC. This allows blind and low-vision users to access the same mainstream technology as that enjoyed by fully sighted users.

Pocket Hal users can now access a word processor or spreadsheet, send and receive email or check their schedules on a calendar whilst away from the home or office and on the move. Pocket Hal gives access to Pocket Word, Pocket Excel and Pocket Outlook, as well as many other applications including MSN and phone services.

Pocket Hal is easy to use, stable and reliable, discreet and portable, Compatible with Bluetooth and serial devices, such as keyboards, braille note takers, headsets.
