

Create your in memory tribute

A new way of remembering your loved one

Sense has a new partnership with Muchloved - a charity working to help bereaved people. Muchloved enables you to create a sensitive, personalised and lasting online memorial to your loved one. This simple but wonderful innovation works by setting up a webpage in your loved one's name.

Muchloved's easy to use website allows you and your friends and relatives to post memories and pictures of your loved one, it is a unique and respectful way of keeping their memory alive.

About Muchloved

- It is a registered charity
- It is free
- It is simple to set up and manage
- You control who has access to your page
- An online community allows you to share your thoughts with others who are experiencing similar loss

Once you have created a webpage that honours the memory of your loved one you can also, if you wish to, choose Sense as a nominated charity and create your own tribute fund that continues to support deafblind people and their families in memory of that special person.

In memoriam gifts to Sense are a positive and valuable way of remembering someone who was close to you. These gifts will celebrate their life whilst at the same time helping create a better future for those who most need our help. You might also like to [leave an in memory donation now](#).
