

Sense College East Careers Offer

Careers learning is the ongoing lifelong process of managing learning, work and life. It requires the skills and knowledge to plan and make informed decisions about education, training and career choices.

Learning For Life

Students access a tailored programme that aims to build:

Independence and communication skills to increase community participation

Skills and learning opportunities that work towards the preparing for adulthood outcomes

Tasters in enterprise and voluntary work

Trips to explore the local community and participate in community events

Visits to explore options for their next steps after college

Embedded Functional Maths and English skills

Access to personal guidance and employability engagement days.

Foundation Learning

In addition to the Learning for Life offer, students have opportunities to:

Achieve accredited bitesize Maths and English awards tailored to their personal journey

Achieve Employability or Personal and Social Skills qualifications

Access voluntary supported external work placements

Access support for Travel Training as part of independent life skills

Programme Content

All students have access to Careers Learning across the curriculum.

Students receive support to explore their interests and strengths to make choices about their future.

Careers learning includes the following areas:

- Self-Awareness
- The Wider World
- Raising Aspirations
- Career Management
- Preparation for work
- Workplace Training

Supported visits to your next destination

Community workplace and enterprise experience

Transitions information, advice and guidance for parents and carers

Opportunities for impartial careers information, advice and guidance
